

Product Unboxing Guide

1 Product unboxing graphic guide

Why do you need to follow the steps to disassemble the product?

In this section, we strongly recommend following the specified steps to disassemble the product. This will not only help ensure that the product is not damaged during transportation, but also minimize the risk of unexpected failures. Please read the following illustrated guide carefully to ensure the safety of your product during the unpacking process.

- **1** Check the packaging box for damage. If there is any damage, please contact the logistics company and the supplier in your area in time.
- **2** **Open** the box and take out the product brochure, sponge packaging cover, myCobot robot arm, power supply, emergency stop switch, tablet base and accessory bag.
- **3** Make sure each step is completed before moving on to the next step to prevent unnecessary damage or omissions.

Note: After taking out the product, please carefully check the appearance of each item. Please check the actual items in the box against the item list.
